

The Goriški muzej regional museum undertakes to enable access to all its web pages and mobile applications in accordance with the Accessibility of Websites and Mobile Applications Act (Official Journal of the RS, no. 30/18 and Directive (EU) 2016/2102 of the European Parliament and of the Council.

This statement of access relates to our web page [www.malt.si](http://www.malt.si).

### **Compliance level**

The web page is only partially in accordance with the Accessibility of Websites and Mobile Applications Act (ZDSMA) as well as WCAG 2.1 international guidelines, up to the AA level provided by the law, due to the exceptions indicated below.

The basic webpage is accessible and compliant when accessed from mobile devices as well as from personal computers. PDF-files on the web page are also accessible.

Incompliances are indicated below.

### **Inaccessible content**

The content indicated below is not accessible due to disproportionate burden (within the meaning of Article 5 of Directive (EU) 2016/2102):

- The photographs on the websites do not have any alternative text, but they contain subtitles.
- The web application that is used at the same time as location and camera on smart devices is not accessible.

The Goriški muzej regional museum estimates that the disproportionate burden would cause significant financial consequences, since in comparison with the existing situation, adapting mainly the graphic content designed for watching video content would be too demanding and extensive.

### **Preparing the statement of access:**

The statement was prepared on 24 May 2023 by the Goriški muzej regional museum.
